Welcome

Chiron Healing® is a gentle, non-invasive method of clearing, balancing and maintaining the subtle energy systems of the body, mind and soul.

Our students come from many different backgrounds and have differing levels of knowledge and experience when it comes to working with energies.

Everyone is made welcome, whether they are an experienced practitioner or someone just starting out on their energy healing journey.

This prospectus will answer some of your queries, and give you an outline of our training courses. You may also like to check our website at www.iachi.com for further information.

Please feel free to contact AESC at aesc@iachi.com if you have any other questions. We are happy to assist whenever we can.

OUR PROFESSIONAL ASSOCIATION

The International Association of Chiron Healers Inc. (IACHI) is the official body representing Chiron Healing® Practitioners and Teachers worldwide.

The Association was formed in 2000 and is registered in Victoria, Australia as a not-for-profit Association holding deductible gift recipient status.

IACHI supports the promotion and teaching of Chiron Healing® throughout Australia and overseas through the Australian Energy School of Chiron (AESC) which is responsible for all education and training matters.

High standards of professionalism are maintained through a Code of Ethics for members, and uniform registration criteria for all Chiron Healing® Practitioners and Teachers.

Students are eligible to join IACHI as Non-Professional members after completing their first Chiron Healing® Level 1 workshop.

Professional members of IACHI are eligible to obtain professional indemnity insurance cover, and it is a requirement that all accredited Chiron Healing® Practitioners and Teachers maintain IACHI membership to retain their qualifications.

Further information and membership application forms may be downloaded from the IACHI website at www.iachi.com

WHO ARE WE ?

The Australian Energy School of Chiron (A.E.S.C.) is the only school in the world authorised to teach Chiron Healing® principles, philosophies and techniques. It operates under the auspices of the International Association of Chiron Healers Inc. (IACHI).

Our curriculum provides training pathways for both professional and non-professional Chiron Healing® practitioners, as well as training for Chiron Healing® teachers, who are eligible for accreditation with the International Association of Chiron Healers Inc. (IACHI).

Our teachers adhere to uniform standards of training both in Australia and overseas.

Many of our graduates choose to make a career from their studies and go into private practice, while others are satisfied with improving their knowledge of energy healing and being able to work on themselves, family and friends. A number of people use their Chiron Healing® training to work specifically with the animal and plant kingdoms, and yet others use their knowledge to work with the land.

When you study Chiron Healing® with us the choice is yours.

OUR VISION

AESC's vision is to make Chiron Healing® available to anyone who wishes to access it - anywhere in the world.

We aim for excellence in providing the highest quality education to as many people as possible so that they may become confident and competent Chiron Healers.

OUR MISSION

AESC provides training, guidance and ongoing support to its students and graduates, assisting them to develop their healing and intuitive abilities and to achieve their desired Chiron Healing® goals.

We treat our students and graduates with respect, dignity, sensitivity and care, and provide equal opportunity for all.

The Australian Energy School of Chiron has been empowering people and training practitioners and teachers for over 30 years.

Continuing personal and professional development is offered through Annual Gatherings, post-graduate practitioner and teacher training, online presentations and Research and Development seminars.

MODULES

Any of our course modules may be undertaken for personal development and understanding, provided any pre-requisite studies have been completed. Those who plan a career as a professional practitioner or teacher are required to complete all compulsory modules as indicated on the following pages.

Workshop Format

All of our teachers work independently of the Association, and adhere to the approved IACHI curriculum. They schedule their own course dates and set their own registration fees.

Course modules are usually conducted over a two-day weekend (or equivalent) to allow students to meet their weekday responsibilities while studying.

Chiron Healing® Core Modules -

Beginning with the basic principles, philosophies and techniques of Chiron, the core units of Chiron Healing® Levels 1 - 4 gradually develop the student's knowledge and understanding of Chiron Healing®, and provide the practical hands-on training required to become a professional Chiron Healing® practitioner.

Each level builds on the knowledge and expertise gained from the one before.

For those who wish to become professional practitioners, Chiron Healing® Level 1 must be taken twice to ensure the student has gained a thorough grounding in the basics and is competent and ready to progress to the higher Levels. Students may enroll to repeat any course at any time and/or out of sequence.

QUALIFICATIONS

PROFESSIONAL PRACTITIONER

Pre-requisites

There are no pre-requisites for entry into the Professional Practitioner course, however Chiron Healing® modules must be taken in sequence (i.e. Chiron Healing® Level 1 before Chiron Healing® Level 2, etc.) N.B. Chiron Healing® Level 1 repeat may be taken at any time. To gain the most from your studies, it is highly recommended that at least one Chiron Healing® Level 1 module be completed prior to attending an "Essences of the Ancient Civilizations®", "The Chrono" or "Chrono Too" module.

Compulsory Modules

- Chiron Healing® Level 1 & Repeat
- Chiron Healing® Level 2
- Chiron Healing® Level 3
- Chiron Healing® Level 4
- Essences of the Ancient Civilizations® Level 1
- Essences of the Ancient Civilizations® Level 2
- Essences of the Ancient Civilizations® Level 3
- A minimum of 10 hours Clinic Observation
- A minimum of 40 hours of Supervised Healing sessions covering the 4 Levels of training (i.e. 10 hours per Level).

Plus External Studies Modules

Anatomy & Physiology ((minimum 50 contact hours)
Communication Skills (minimum 15 contact hours)
Practice Management (minimum 40 contact hours)
Current Senior (Level 2) First Aid Certificate (minimum 15 hours)

Assessment:

Written (theory) and practical **Competency Assessments** for the following:
Chiron Healing® Level 1, Level 2, Level 3 and Level 4.

ASSESSMENT

Students who wish to gain official qualification at any level must undertake both theory and practical competency assessments for each of the Chiron Healing® core modules. Assessments may be taken at any time providing the required studies have been completed. Students studying for personal development are not required to take any assessments, but may choose to do so if they wish.

All written and practical assessments are conducted as "Open Book" sessions, and the successful student is issued a **Certificate of Competence***** as acknowledgement of their achievement.

***Certificates of Competence do **NOT** entitle the student to go into professional practice.

QUALIFICATIONS (cont)

Jan Thomas

(1948 - 2011)

Jan was an exceptionally gifted Seer and Psychic. She had the ability to connect with the Spirit realms and particularly with Master Chiron (the ancient Greek teacher).

With this gift she dedicated her life to ‘bringing through’ and developing the body of information which became known as **Chiron Healing®**.

Jan worked with others to train practitioners and teachers in this extra-ordinary healing modality. She authored several books and many articles, including writings on such subjects as: working with children, working with animals and plants, addictions, essences, and healing in ancient ways.

Jan developed the entire set of manuals which accompanies all Chiron Healing® courses

Chiron Healing® is a method of correcting imbalances in the energy field which surrounds all living things - the “aura” or “electro-magnetic field”.

Any imbalance or distortion in the energy field changes the “life-force” energy we receive from the universe, and leads to a lessened or distorted expression of the perfect human beings that we are.

Universal life-force energy is directed by our minds through our hands to focus on restoring balance, therefore improving normal life-force energy flow which in turn enables us to express our full human potential.

QUALIFICATIONS (cont)

CHIRON HEALING® TEACHER TRAINING

Any student who has completed the required units of study and meets the necessary criteria may apply to become a trainee Chiron Healing® teacher.

The **Australian Energy School of Chiron** oversees all training for Chiron Healing® teachers. Our training program aligns with the requirements for professional membership of the **International Association of Chiron Healers Inc.** (IACHI) and graduates are eligible to join the Association as Professional (Teacher) members.

The minimum requirements for entry into Chiron Healing® teacher training are:

- **Advanced Professional Chiron Healing® Practitioner** qualification
- A minimum of six months **professional Chiron Healing® practise** with 100 documented client cases
- Training in **planning, organising and delivering group-based learning**. e.g. relevant unit from the Australian Certificate IV in Workplace Training and Assessment qualification, or equivalent
- **Student Teacher Status** (granted by AESC) and a qualified **Mentor** appointed.

Information on pre-requisites and training requirements for each of the Chiron Healing® Teacher training courses is given in our **Teacher's Handbook**, available to eligible students upon being granted student teacher status. For further information please contact us.

Teacher training begins by working alongside an experienced Chiron Healing® teacher (usually their Mentor) where the trainee has ample opportunity to observe and assist while gaining an understanding of planning, logistics and other tasks involved.

Supervised teaching follows with guidance and instruction by the Mentor and/or Co-Teacher, which continues until the trainee has gained the necessary professional skills required of a Chiron Healing® Teacher.

ASSESSMENT

Once teacher training requirements have been completed to the satisfaction of their appointed Teacher Mentor, the trainee teacher may then apply to be assessed for competency as a teacher of that particular level or course.

Assessment consists of organising and teaching a full workshop, unassisted, with an Assessor present. The Assessor will determine whether the trainee has reached the required level of competence, and if so they will be issued with a **Certificate of Competence***. They may then apply to AESC for official accreditation as a Chiron Healing® Teacher of that course. Upon approval the new teacher is issued with an official Chiron Healing® Teacher Certificate.

All accredited Chiron Healing® Teachers are required to sign the “IACHI Teacher Agreement” prior to conducting courses.

CORE UNITS OVERVIEW

Chiron Healing® Modules Levels 1 - 4

Beginning with the basic Principles, Philosophies and Techniques of Chiron, these core units gradually develop the student's understanding of Chiron Healing® and provide the practical hands-on training required to become a professional Chiron Healing® practitioner.

Each level builds on the knowledge and expertise gained from the one before, therefore each Chiron Healing® module must be done in sequence (i.e. Level 1, then 2, 3, and 4).

Chiron Healing® Level 1 is repeated to ensure that the student has a thorough grounding in the basics. Repeat courses may be taken at any time, i.e. it is not necessary to repeat Chiron Healing® Level 4 before repeating Chiron Healing® Level 1. (*More details given on P.11-16*).

Essences of the Ancient Civilizations® Levels 1 - 3

The thirty-six *Essences of the Ancient Civilizations®* plus three “*Universal Essences*” are an integral part of the Chiron Healing® modality.

These essences are unique to Chiron Healing® and in each of the three modules the student learns about twelve different *Essences of the Ancient Civilizations®* ... i.e. what they are, where their energies come from, and how and when to use them.

It is highly recommended that Essences modules be taken in sequence (i.e. Level 1, then 2, then 3) however they MAY be done out of order if sequential workshops are not available.

There are no pre-requisites to attend an *Essences of the Ancient Civilizations® Level 1* module, i.e. students are not required to have attended any Chiron Healing® workshops prior to attending an *Essences of the Ancient Civilizations®* workshop, however it is highly recommended that they do so. (*See P.17-19 for details*).

Essences of the Ancient Civilizations® (Levels 1 - 3)

These essences are unique to Chiron Healing®, and in each ‘Essence’ module of the course, information on twelve different *Essences of the Ancient Civilizations®* is taught - what they are, where the energies come from, and how and when to use them.

The thirty-six “*Essences of the Ancient Civilizations®*” plus three “*Universal Essences*” are an integral part of the Chiron Healing® modality.

PROFESSIONAL DEVELOPMENT

Ongoing professional development is a requirement for all **Chiron Healing® Practitioners, Advanced Practitioners and Teachers** in order to maintain their IACHI qualification and registration, and to remain eligible for professional indemnity insurance cover. The minimum requirement is attendance at an approved professional development course once every two years.

CORE UNITS OVERVIEW (cont.)

Clinic Observation

This requirement is designed to help the student learn as much as possible by observing qualified Chiron Healing® practitioners at work, i.e. observing how different practitioners handle clients, schedule patient visits, manage staff, etc., as well as tips on how to successfully conduct a healthcare business.

Special “Clinic Observation Days” may be set up by qualified Chiron Healing® practitioners to assist students to complete their training requirements. Further guidelines appear in the Chiron Healing® Student Logbook. *(also see P.20)*

Supervised Healings

The student is required to complete a minimum of 10 hours practise per each Level under the supervision of a qualified Chiron Healing® practitioner. This allows the developing student to practise their techniques, to ask any questions they may have, and to develop a professional approach when working with others. *(see P.21)*

EXTERNAL UNITS OVERVIEW

The core subjects of **Anatomy & Physiology, Communication Skills, Practice Management** and **Senior First Aid** are not yet offered by the Australian Energy School of Chiron, and must be studied externally. *(Online courses in Anatomy & Physiology and Practice Management are currently under development).*

Online or distance education courses for external units may be approved by AESC if all criteria are met. Please check with us prior to enrolling in any such course.

Anatomy & Physiology - basic anatomy and physiology covering the structure and function of the human body, organ systems, cells and tissues, homeostasis, muscles, etc. A minimum of 100 hours *(50 hours tuition and 50 hours home study is accepted)* *(see P.22)*

Communication Skills - how to communicate appropriately and effectively in any situation, e.g. different kinds of communication, body language, personality types, barriers to communication, active listening, questioning skills, etc. A minimum of 30 hours *(15 hours tuition and 15 hours home study accepted)*. *(see P.23)*

Practice Management - information relevant to running a healthcare business - legal requirements, leases, ethics, staff, managing client cases and scheduling, finances, etc. A minimum of 80 hours *(40 hours tuition and 40 hours home study accepted)*. *(see P.24)*

First-Aid Certification - Senior / Level 2 First-Aid training. Must be completed within the last 3 years. A minimum of 30 hours *(15 hours tuition and 15 hours home study accepted)*. *(see P.25)*

Recognised Prior Learning

Students who have relevant industry experience, or who have recently studied similar “external” courses to those listed, may apply for recognised prior learning (RPL) credit. Applications must be received on the ***Application for RPL form***, available to download at ***www.iachi.com*** under “***The Learning***” tab > ***Forms***.

Each application is considered on an individual basis.

How to Enrol:

We suggest students begin by attending a Chiron Healing® Level 1 workshop.

Depending on your locality there may already be a course scheduled in your area. Please check the course calendar at ***www.iachi.com*** and click on “***The Learning***” > “***Learning Events***” to search for courses.

IACHI accredited Chiron Healing® teachers conduct their own business enterprises independently of the Association, and may set their own teaching schedules and course enrolment fees. All teachers adhere to the approved IACHI course curriculum and Code of Ethics. Prospective students should contact the teacher or course organiser to enrol and/or to obtain more information.

Courses are usually scheduled over a two-day weekend. This allows you to continue existing commitments while studying Chiron Healing®.

ANNUAL GATHERINGS

Chiron Healing® students, practitioners and teachers come together for the “*Annual Gathering*” - usually held face-to-face over two or three days, or online for half to one day - to learn, practise and revise their Chiron Healing® skills, information and techniques, and to socialise with their colleagues.

The Chiron Healing® “Gathering” is currently conducted online to overcome recent travel restrictions. We aim to resume face-to-face Gatherings in the near future.

Gatherings in Australia are usually held annually in September/October, and in Taiwan bi-annually or as requested. Gatherings may be conducted in other locations or delivered online, as the demand dictates.

Anyone who has completed a Chiron Healing® Level 1 seminar is eligible to attend.

FAQ

- Can anyone learn to do Chiron Healing®
- If I can't "see" energy or the human aura can I learn to do Chiron Healing®?
- Does Chiron Healing® work for physical ailments too?
- Do I have to become a practitioner to use Chiron Healing®
- Can Chiron Healing® be incorporated into my existing health practice?
- How long does it take to study Chiron Healing®
- Can I use Chiron Healing® on myself?
- How did Chiron Healing® evolve?

The first principle of Chiron is to “Care for Others”.

The second principle is to “Care for Self”.

Q. Can anyone learn to do Chiron Healing®?

A. Yes. Chiron Healing® can be learnt by anyone who has an interest and curiosity in healing. Its methods are taught step by step, allowing you to practice and integrate the benefits with experience as you go. Trained teachers support you in the process of learning and in answering any questions you have.

Q. If I can't "see" or "feel" energy or the human aura can I learn to do Chiron Healing®?

A. Yes you can. Many people do great work without being able to perceive the energy body. This is accomplished by maintaining intention while directing energy towards parts of the energy pattern. Our energy field or Master Diamond exists as a complex web of energy centres and structures. A chart of the Master Diamond is included in the Chiron Healing® manuals, which assists practitioners and students to work systematically through each part of the etheric pattern in turn. Imbalances are corrected, areas of energy are supported and life sustaining energy can then flow freely again.

Q. Does Chiron Healing® work for physical ailments too?

Chiron Healing® sessions may be very effective in the process of supporting the physical body to heal. However Chiron Healing® is not involved with the diagnosis and treatment of any

disease or illness, and does not claim to be a substitute for traditional medical treatment. We advise you to obtain advice from your registered health practitioner.

Q. Do I have to become a practitioner to use Chiron Healing®?

A. Anyone can practice Chiron Healing® techniques on themselves, family or friends. However, to enter into professional practice or to call or advertise yourself as a Chiron Healing® practitioner, you must complete all training requirements and gain IACHI Professional Chiron Healing® Practitioner accreditation, and maintain IACHI Professional membership.

Q. Can Chiron Healing® be incorporated into my existing health practice?

A. Absolutely. While Chiron Healing® stands alone as a healing modality in its own right, it can add wonderful benefits for practitioners of other healing modalities.

N.B. *Please refer to the above Question and Answer.*

Q. How long does it take to study Chiron Healing®?

A. Studies are completed at your own pace, and we do not recommend that you rush through the course. It takes time to complete the set curriculum requirements and develop the skills to reach Professional Practitioner level. For some that may take 2-5 years, depending on their circumstances. Those who do not wish to become professional practitioners may start to practice on family and friends straight away.

Q. Can I use Chiron Healing® on myself?

A. Yes. There are various principles within Chiron Healing®. The first principle is to **'care for others'**. The second principle is to **'care for self'**. The Chiron Healing® journey involves not only learning to use the healing techniques to help others, but also to assist your own self to find that wholeness within the 'Core' of your being while supporting your body to be in optimum health.

Q. How did Chiron Healing® evolve?

A. Chiron Healing® began in Warrnambool, Victoria, Australia, in the late 1970s when a small group of health professionals began meeting on a regular basis to listen to and learn from Jan Thomas, a talented psychic medium. Jan 'brought through' information about the human energy field and its influence on the human body in health and disease. Information was accumulated and clinically tested by this group of people. It was soon realised that a valuable new insight into the workings of the human body in health and disease was emerging. This new body of knowledge became known as 'CHIRON HEALING®'.
